Software engineering leader with 10 years of experience in software and 5 years in management. Expertise in TypeScript, React, Postgres, MongoDB, containerization, and serverless architectures. Looking to support and grow software engineers in achieving more than they thought themselves capable of.

Languages: TypeScript, JavaScript, Python
Frameworks: Node.js, React, Redux, Next.js, Jest, Cypress, Webpack, Babel, Grunt
Databases: PostgreSQL, MongoDB, Redis, ElasticSearch, Cassandra
Infrastructure: Kubernetes, Docker, AWS Lambda, AWS EC2, GHA, Jenkins, Concourse

Tulip - Engineering Team Lead

February 2021 - July 2026, Somerville, MA

- Operate as people lead for 2 full-stack engineering teams
- Hire 7 FTEs and 2 interns
- Responsible for the well-being of between 5 and 10 engineers
- Work with cross-functional stakeholders and executives to build and maintain the Tulip Library, tulip.co, various web properties, and features for our main product offering, the Tulip Platform
- Manage stakeholders including Product Management, Design, Marketing, Customer Success, and Executive leadership

Tulip - Application Engineer

February 2019 - February 2021, Somerville, MA

- Deliver customer success for multi-million dollar Enterprise accounts by scoping, managing, and executing the technical aspects of customer implementations
- Own technical implementations for strategic partnerships, develop and maintain custom software solutions for strategic customers and partnerships
- Support our product engineering teams as we develop product maturity by building new product features

ShopAdvisor - Lead Software Engineer

February 2017 - February 2020, Concord, MA

- Develop a new version of the ShopAdvisor Product Search API in conjunction with the VP of Engineering to increase performance and scalability as well as reduce financial strain
- Manage customer relationships and work with the sales team in all technical customer engagements

IBM - Software Developer Intern

June 2015 - December 2015, Boston, MA

- Developed a portal and dashboard with an agile team of engineers that provided teams with technical and financial insights into IBM Cloud product offerings

Gordon College - Bachelor of Science, Computer Science

August 2012 - May 2016, Wenham, MA
